DATE: 21 Jan 2013

Dear Dr Rye

Ref no: **1365**

Date of visit: **03 – 06 Dec 2012**

Type: **Main**

At the end of the assessment the Regional Assessor provided you with the list of findings from all assessors. During the decision making process I have taken advice from the CPA Decision Making Group and, where appropriate, from the Professional Advisory Committee. The decision on each of the findings is now shown in the far right hand side of the Report. There are occasions when it has been necessary to modify the findings in respect of the clause attributed and the level of status. This is to ensure that the report is as accurate as possible. If there have been any changes to your report you will see where the changes have been made.

The laboratory is currently **Accredited** and can maintain **Accreditation** on the understanding that the non-conformities are cleared no later than the expiry date shown below. If this is not possible, the status of the department will be amended to Conditional Approval.

Interim expiry date: 25th Feb 2013

The completed Clearance Review Form and supporting evidence for all the non-conformities must be submitted in electronic format according to the instructions at the base of the form. Please submit evidence well in advance of expiry dates to allow sufficient time for it to be reviewed and processed.

Thank you for taking part in the accreditation programme and we look forward to receiving information in the near future.

Yours sincerely

A handwritten signature in cursive script, appearing to read 'L. Da' followed by a long horizontal flourish.
